

DEMI X 200 Plus™

All-In-One Resin Cleaning Post-Print Solution

Resin Cleaning

Rinsing

Drying

Curing

The PostProcess® **DEMI X 200 Plus** is an advanced, all-in-one resin cleaning solution designed for SLA and DLP parts. This fully automated system streamlines cleaning, rinsing, drying, and curing to deliver customer-ready 3D-printed parts with minimal manual intervention. With its compact footprint, the DEMI X 200 Plus seamlessly integrates into dental labs and manufacturing facilities, optimizing efficiency without compromising space.

● **Fast processing speeds**

In under 30 minutes you can achieve high quality finished parts with this fully automated workflow.

● **Reduced manual labor**

No operator interaction needed! Minimize manual labor and operator error with all-in-one automated cleaning, rinsing, drying and curing.

● **Enhanced safety**

One-touch operation eliminates the need for solvent contact, providing maximum technician protection and enhanced safety.

● **Small footprint**

DEMI X 200 Plus provides a small, all-in-one footprint that can clean, rinse, dry and cure your parts in one batch, eliminating the need for separate rinse baths, compressed air and curing units.

● **Reduced costs**

With an all-in-one footprint, you can eliminate additional operating expenses for manual labor, curing units and ventilation.

● **Increased throughput**

The fully automated DEMI X 200 Plus can clean, rinse, dry and cure your parts in one step, enabling consistent, high volume production.

Software features:

- Hands-free, one-touch operation
- Programmable, repeatable recipes
- Time, temperature & agitation customization
- Automated saturation monitoring

Hardware features:

- Simple touchscreen interface
- Universal basket
- Small footprint
- Curing atmosphere under vacuum or neutral gas

DEMI X 200 Plus Product Specifications

Electrical Requirements:	100-240 Volt 4.6 A 50/60 Hz
Envelope Capacity:	6.3" L x 3.9" W x 7.9" H (160 x 100 x 200 mm)
Lift Capacity:	10 parts
Consumables Used:	PLM-403-SUB, Isopropyl Alcohol (IPA)
Consumables Capacity:	8.5 liters
Machine Dimensions:	21.7" L x 19.9" W x 23.6" H (550 x 505 x 600 mm)
System Weight:	Approx. 55 kg (121 lbs)
System Warranty:	12 months on-site service and support, as per PostProcess Technologies conditions of sale.
Regulatory Conformity:	CE
Curing Features:	UV light, heat, vacuum, connector for inert gas
Features & Options:	Customizable settings with recipe storage capability / Ability to clean, rinse, cure & dry with no manual intervention / Automatic saturation monitoring
Safety Features:	Emergency stop
Connectivity:	Wifi, Ethernet
Material Compatibility:	All vat photopolymerization and dental resins
Printer Compatibility:	Designed for use with any DLP or SLA printer
